## JOS. SWEENEY'S CASE

Partly Heard by U. S. Commissioner Campbell Yesterday.

FOR PASSING BOGUS BANK NOTES.

Several Benwood Witnesses Identify him and the Bad Bills, which are Simply Photographs of Money Colored by Hand—The Examination Postponed to next Monday.

Yesterday afternoon was the time set for the preliminary hearing of Joseph Sweeney, before United States Commissioner Campbell, on the charge of passing counterfeit money. As was explained the other day Sweeney was spending \$5 and \$10 bills which were simple photographs of genuine treasury notes, numbered by hand, and the scroll work colored green in the same way. F. Miller, Mr. Rigot and Paul Riedel, of Bellaire, testified, as did also Riedel's bar keeper, George Fisher. They identified Sweeney as the man and recognized the bill as similar to the ones they had taken in. Col. Arnett appeared for the defense, and after the case was partly heard it was adjourned until Monday.

BELMONT CRIMINALS.  
The Work of the Grand Jury Which Made Its Report Yesterday.

The grand jury of the summer term of the Belmont county common pleas court reported at St. Clairsville yesterday the following indictments:

George Stevens, grand larceny; Clyde Cookran, larceny; William Mayhew and Oliver Mayhew, assault with intent to kill; August Holt, assault and battery; William Hartley, selling liquor on Sunday; William and Serepta Hartley, keeping a place where intoxicating liquors are sold in violation of law; Martin Grogan, suffering gaming in his house; Fritz Weazey, John Monahan, Edward Hoover and Joseph Taylor, for assault with intent to rob. These are the parties that attempted to rob John Parker. John Williams, William McKnight, Frank Good and John Mulloman, burglary; Frank Dade, burglary. Three other true bills were returned, but the parties are not in custody yet.

A Grocer Arrested.  
J. T. Knouff, the Ohio state food commissioner, seems determined to convict some of the wholesale grocers. After Ernest Baer, of Baer Sons, was acquitted by the Belmont county grand jury, Knouff visited several stores in Martin's Ferry, and in one he found what he asserted to be adulterated pepper. This the dealer said he bought from Baer's Sons, and yesterday, Mr. Baer, while making his semi-weekly rounds in Martin's Ferry, was arrested on this charge. He gave \$50 bond and the hearing was set for Saturday, May 5.Fight at Fulton.  
"Mother Bunch," the keeper of a house of ill fame on Eoff street and of several others out in Tuscarawas county, O., recently bought Baker's saloon, in Fulton, and night before last she gave an opening, at which there were many Elm Grove people. The drinks were free, which had the usual effect, and while the festivities were at their height, a row sprang up between Fulton and Elm Grove men, and there were several heads broken and a good deal of blood spilled.

## SCARCITY OF COKE

Causes the Closing Down of Wheeling Industries.

The coal strike which has already spread to the coke regions is playing havoc with the Wheeling industrial establishments that have been running. Yesterday afternoon the work of banking down the blast furnace at the Riverside mills in Benwood was commenced for the reason that there is no available supply of coke in sight. Some coke was received at the Riverside yesterday but not enough to run the furnace beyond a day or two.

The steel works at the same establishment shut down yesterday morning on account of the scarcity of fuel, and it is said that the tube works will also be shut down for the same reason within a few days. If the blast furnace does not resume soon it will of course cause the shut down of the entire Riverside plant in Benwood.

The Belmont blast furnace, on the South Side, is still running, but a shut down at that point is daily expected. Other establishments will also feel the effects of the great miners' strike shortly.

## Engineers' Meeting.

The Wheeling No. 1, National Association of Stationary Engineers, having painted and renovated their hall at 1049 Main street, are making arrangements to hold an open meeting and lecture for the benefit of steam users and mechanics generally. Their aim is to advance knowledge regarding mechanics and to lift to a higher level their association. The meeting will be addressed by electrical and mechanical experts, and will be a treat to those interested, who attend. They have made it admissible to ladies and every courtesy will be shown those who attend.

## A B. &amp; O. Employee Hurt.

Yesterday afternoon Anthony Murtagh, whose home is at Garrett, was brought here from Grafton, seriously hurt. The city patrol wagon took him to the North Wheeling hospital. He attempted to get on a moving train in the Baltimore &amp; Ohio yard at Grafton, where he has long been employed, and was thrown down and was seriously hurt. It is said he will recover.

## "Lady Wildermere's Fan."

At the Opera House last evening Oscar Wilde's famous play was presented to a large and very fashionable audience. The cast was unusually strong, every role being essayed by a competent actor or actress, and seldom has as refined an audience in this city given such hearty demonstrations of approval. In every detail the performance was artistic, excellent and enjoyable.

It is only of late years that rheumatism has been treated as a blood disease. But that this is a correct theory is proved by the extraordinary success attending the use of Ayer's Sarsaparilla, in this painful and very prevalent malady. It seldom fails of radical cure.

## DR. MAYO'S LECTURE

At the Y. M. C. A. Yesterday—What the Public Expects of the Teacher.

At the Y. M. C. A. hall at 3:30 yesterday afternoon Dr. Mayo lectured to an audience of teachers, pupils and others. The exercises opened with a chorus by grammar school scholars, led by Miss Robinson, Miss Reeves at the piano. This was followed by two solos by little Misses Marie Jacob and Lillie Bell. Dr. Mayo then gave an earnest talk on the subject of education. While the teacher is the great factor in educational work there is an educational public, he said. People are thinking deeply as to how our public schools are conducted.

This educational public demands of the teachers: 1. Skilled labor in the school room. The schools of fifty or 100 years ago will not be tolerated much longer.

2. He shall know something of the child.

3. That he shall have a method. This method must be his own. He cannot fight in somebody's armor. He must have his own.

Teachers should remember that they are members of a great professional body. Teaching lies at the foundation of all other professions. The great want of our schools to-day is experienced teachers, teachers who would stay in the work longer. The public expects you to be consecrated to your work.
